

Pho Cid

Non foaming acid cleaner and descaler

PROPERTIES :

- Combination of acids effectively removes calcium and mineral scale deposits.
- Surfactants ensure thorough penetration.
- Pho Cid is silicate-free.
- Pho Cid does not foam.
- Pho Cid is non-corrosive in use.

Cleaning Cool Cell Pads (Recirculating Systems): With pump on, add into the sump tank Pho Cid at .75% to 1% solution or 1 to 2 ounces per gallon of water. Allow for Pho Cid to circulate through the system until pads are clean but do not exceed 24 hours of circulation with Pho Cid. Wash pads with low-pressure garden hose.

Drain all water from the system including reservoirs, sump tank and filters. Refill the tank with clean water.

Cleaning Cool Cell Pads (Fogging Systems): Turn pump to pad off. Wet pads with water and then saturate the pad with Pho Cid at a 3% to 4.5% solution or 5 to 6 ounces per gallon of water. Wash pad with low-pressure garden hose or water under pressure.

INSTRUCTIONS FOR USE :

As an acid cleaner in tray and buggy washers: use 3/4-11/2 ounces per gallon.
As a descaler : use 6-8 ounces per gallon.

DANGER

GHS05

EN - DANGER H314 - Causes severe skin burns and eye damage P280 - Wear protective gloves/protective clothing/eye protection/face protection P260 - Do not breathe dust/fume/gas/mist/vapours/spray P303: IF ON SKIN: Remove immediately all contaminated clothing.
