

FOR ANIMAL USE ONLY

INDICATIONS: Lubrication of the arm or glove for rectal and obstetrical procedures in large or small animals; for lubrication of devices such as stomach tubes, enema nozzles, catheters and obstetrical instruments before insertion into body cavities; as an aid in delivery at dry birth.

DIRECTIONS: Apply 7 or 8 mL to pre-wetted or dry glove, arm or instruments. Distribute evenly.

To prepare a bulk lubricant to aid in dry birth, add All Purpose Lubricant to two quarts of water until the desired viscosity is reached. Formulated to function even if water is not available.
