

HydroFoamer

Portable spraying and foaming of concentrates

The HydroFoamer and HydroSprayer offer easy automatic dilution with convenient control of where and how the solution is applied. On and off functions are at your fingertips, trigger-controlled on the spray nozzle. To rinse, the concentrate container is disconnected using an easy-to-operate quick coupler, designed to allow either a full width spray or powerful jet stream while rinsing. This range of control helps personnel apply the solution where it's wanted. Handles on larger containers increase the operator's control over the application.

- Built with Hydro's proven, reliable components; years of use in the field provide proof of durability
- Compact and easy to store
- Increased productivity of employees
- Reduced exposure to concentrates enhances safety
- Non-electric, no installation required; simply fill the concentrate container and connect the dispenser to a water source
- Maximum cleaning product performance

Perfect for

- Restaurants
- Food preparation areas
- Supermarkets
- Food processing plants
- Animal care/research facilities
- Correctional facilities (shower areas)
- Health care and educational facilities
- Service stations
- Paving contractors' facilities (asphalt release agents)

You want it, you got it!

The HydroFoamer and HydroSprayer can be purchased as a kit. When used in combination, the HydroFoamer and HydroSprayer provide cleaning, rinsing and sanitizing. Ask your representative about the 700 Series hose-end sanitation kit that combines these popular, effective sanitation products!

HydroFoamer Model & Specifications

Model	Capacity	Approximate Dilution Range	
		Min	Max*
481	96 ounces (2.8 liters)	12:1	128:1
483	48 ounces (1.4 liters)	12:1	128:1

The HydroFoamer's unique injection concept mixes the proper amount of concentrate with both air and water to produce a thick, rich foam for longer soak time.

*Leaner dilutions available; contact customer service for information.

HydroSprayer Model & Specifications

Model	Capacity	Approximate Dilution Range	
		Min	Max*
381	96 ounces (2.8 liters)	16:1	128:1
383	48 ounces (1.4 liters)	16:1	128:1

HydroSprayers produce a fine mist spray suitable for application of no-rinse sanitizers of products used to cover relatively large areas.

*Leaner dilutions available; contact customer service for information.
