

AzaGuard[®]

Insecticide and Nematicide

AzaGuard is a 3% Azadirachtin formulated Insect Growth Regulator (IGR) that offers broad-spectrum insecticidal control on many insect species. By disrupting molting stages insects are unable to grow into adults or lay eggs. AzaGuard is labeled specifically for darkling, hide and carrion beetles in addition to many more species.

- ▼ EPA-registered
- ▼ Only Azadirachtin or Neem based IGR approved for use in poultry houses
- ▼ Ideal for commercial or organic IPM programs
- ▼ Short REI for between flock use
- ▼ Insect growth regulator, anti-feedant, insect repellent, and oviposition deterrent
- ▼ Target all life stages of insects with tank mix applications
