

# Agrow-Clean<sup>™</sup>

## Agrow Clean<sup>™</sup>

### Whole Farm Water Treatment System by Proxy-Clean<sup>®</sup> Products

The Agrow-Clean<sup>™</sup> System is a combination of an electronic diaphragm pump(s), pulse output water meter and Proxy-Clean<sup>®</sup> Product's trusted water treatment chemicals

### PROVIDES THE ABILITY TO TREAT THE ENTIRE FARM FROM A CENTRAL LOCATION

The Agrow-Clean system is designed to treat up to 225,000 gallons of water per day.

### GREATER ACCURACY OVER A LONGER PERIOD OF TIME

Electronic Diaphragm Pumps do not have any wear parts that need replacement, providing more accurate dosing over extended periods of time.

### EASY MAINTENANCE

The pumps are dust proof and can handle wash down duty.

### VERSATILITY

The pump can be programmed to work with any existing pulse output water meter.

### RELIABILITY

The pumps are both water and UV resistant, and it meets IEC specification IP65

### CHEMICAL COMPATIBILITY OF WETTED PARTS

Compatible with Proxy-Clean's trusted line of chemicals for trouble free operation.
