DESCRIPTION:

FBP23 LBT Bait is a Fungal BioPesticide treatment for control of darkling beetles (lesser mealworm) in poultry litter in chicken broiler and turkey growout houses. It is formulated with *Beauveria bassiana* HF23. This potent formulation provides excellent control of hard to kill darkling beetles including those resistant to other pesticides including certain pyrethroids.

EFFECTIVENESS:

FBP23 LBT Bait controls darkling beetles for up to 4 weeks with a single treatment.

PACKAGING:

FBP23 LBT Bait is available in 12 lb. plastic sleeves and is packaged with 2 sleeves in a box.

PRODUCT ADVANTAGES:

1. FBP23 LBT Bait is approved for use under feed lines and feed pans.
2. Targeted application allows for longer residual activity and increased concentration at sites where the highest beetle populations are prevalent.
3. Specially formulated for drop spreader application.
4. Formulation is approved for organic production.
5. The recommended application rate of 12 to 24 lbs. per house (1 oz. per sq. ft.) is very convenient for pesticide applicators (2 sleeves per standard broiler house).
6. Fast and easy to apply with drop spreader band application. One band under each feedline and along walls is all that is required.
7. Ideal rotation product for any conventional insecticide program.

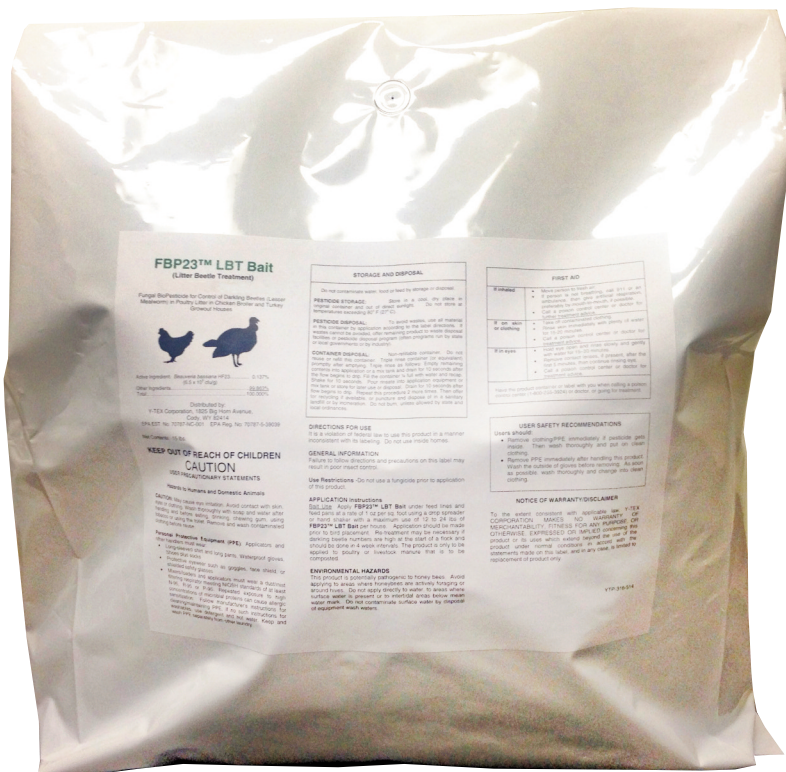

FBP23™ LBT Bait

(Litter Beetle Treatment)

FOR ORGANIC PRODUCTION

Fungal BioPesticide for Control of Darkling Beetles (Lesser Mealworm) in Poultry Litter in Chicken Broiler and Turkey Growout Houses

KEEP OUT OF REACH OF CHILDREN CAUTION

ACTIVE INGREDIENT:

<i>Beauveria bassiana</i> Strain HF23 (6.5×10^9 cfu/g)	0.137%
OTHER INGREDIENTS	99.863%
TOTAL	100.000%

FBP23™ LBT BAIT product information

DIRECTIONS FOR USE

It is a violation of Federal law to use this product in a manner inconsistent with its labeling. Do not use inside homes.

General Information

Failure to follow directions and precautions on this label may result in poor insect control.

Use Restrictions -Do not use a fungicide prior to application of this product.

Application Instructions

Bait Use Apply **FBP23™ LBT** Bait under feed lines and feed pans at a rate of 1 oz per sq. foot using a drop spreader or hand shaker with a maximum use of 12 to 24 lbs of **FBP23™ LBT** Bait per house. Application should be made prior to bird placement. Re-treatment may be necessary if darkling beetle numbers are high at the start of a flock and should be done in 4 week intervals. The product is only to be applied to poultry or livestock manure that is to be composted.

ENVIRONMENTAL HAZARDS

This product is potentially pathogenic to honey bees. Avoid applying to areas where honey bees are actively foraging or around hives. Do not apply directly to water, to areas where surface water is present or to intertidal areas below mean water mark. Do not contaminate surface water by disposal of equipment wash waters.

USER SAFETY RECOMMENDATIONS

Users should:

- Remove clothing/ PPE immediately if pesticide gets inside. Then wash thoroughly and put on clean clothing.
- Remove PPE immediately after handling this product. Wash the outside of gloves before removing. As soon as possible, wash thoroughly and change into clean clothing.

KEEP OUT OF REACH OF CHILDREN CAUTION

USER PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

CAUTION: May cause eye irritation. Avoid contact with skin, eyes or clothing. Wash thoroughly with soap and water after handling and before eating, drinking, chewing gum, using tobacco or using the toilet. Remove and wash contaminated clothing before reuse.

Personal Protective Equipment (PPE):

Applicators and other handlers must wear:

- Long-sleeved shirt and long pants, waterproof gloves, shoes plus socks.
- Protective eyewear such as goggles, face shield, or shielded safety glasses.
- Mixers/loaders and applicators must wear a dust/mist filtering respirator meeting NIOSH standards of at least N-95, R-95 or P-95. Repeated exposure to high concentrations of microbial proteins can cause allergic sensitization. Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables, use detergent and hot water. Keep and wash PPE separately from other laundry.

STORAGE AND DISPOSAL

Do not contaminate water, food or feed by storage or disposal.

PESTICIDE STORAGE: Store in a cool, dry place in original container and out of direct sunlight. Do not store at temperatures exceeding 80° F (27° C)

PESTICIDE DISPOSAL: To avoid wastes, use all material in this container by application according to the label directions. If wastes cannot be avoided, offer remaining product to waste disposal facilities or pesticide disposal program (often programs run by state or local governments or by industry).

CONTAINER DISPOSAL: Non-refillable container. Do not reuse or refill this container. Completely empty container into application equipment. Then dispose of empty container in a sanitary landfill or by incineration or if allowed by state and local authorities, by burning. If burned, stay out of smoke.

FIRST AID	
If inhaled	<ul style="list-style-type: none"> • Move person to fresh air. • If person is not breathing, call 911 or an ambulance, then give artificial respiration, preferably by mouth-to-mouth, if possible. • Call a poison control center or doctor for further treatment advice.
If on skin or clothing	<ul style="list-style-type: none"> • Take off contaminated clothing. • Rinse skin immediately with plenty of water for 15-20 minutes. • Call a poison control center or doctor for treatment advice.
If in eyes	<ul style="list-style-type: none"> • Hold eye open and rinse slowly and gently with water for 15-20 minutes. • Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. • Call a poison control center or doctor for treatment advice.
HOT LINE NUMBER	
Have the product container or label with you when calling a poison control center (1-800-255-3924) or doctor, or going for treatment.
