

Foam-Clean®

Foam-Clean®

Additive that when mixed with a solution of Proxy-Clean® and water creates an ultra-low pH foaming Hydrogen Peroxide Solution.

- Foaming peroxide action allows for superior soil penetration
- Foaming action acts as a wetting agent increasing contact time and coverage

- Ideal Combination of low pH and Hydrogen Peroxide for floor/pad treatment
- Can be applied to concrete, dirt pads, footings, slats, etc.
- Can be applied with most high-pressure sprayers

- Chloride/Chlorine free - greatly reduces the potential for corrosion
- Environmentally friendly

- Fast acting
