NET CONTENTS: 55 US GALLON/208L

Tray-Clean™ is a chlorinated, non-foaming alkaline cleaner formulated for quick soil and scale removal. The unique combination of chlorinated and alkaline ingredients quickly decomposes proteins, soils and surface stains. Surfactants and chelating agents keep soils suspended and prevents them from redepositing on surfaces and equipment while also preventing scale and corrosion. Tray-Clean™ is an equipment friendly, cost-effective cleaner that is biodegradable and phosphate-free.

DIRECTIONS FOR USE:

Washing chick boxes, hatch trays, and egg flats: Use .5% to 1% Tray-Clean™ in 130° to 150° F water. (1:256 [.5%] - 1:128 [1%])

For Inovoject®:

For PM cleaning cycle: add 45ml (1 1/2 oz) of Tray-Clean™ to each gallon of water.

For Vacuum Head Cleaning Tank (Jacuzzi Cleaner) add 240ml (8oz) of Tray-Clean™ per tank full.
