

AquaPrime® Peraside™ 15

Product

AquaPrime Peraside 15 is an EPA approved peroxyacetic acid-based microbiocide developed for cleaning and disinfecting poultry and livestock drinking water lines. This product can also be used for equipment sanitizing, slime and odor control in poultry and livestock drinking water lines, fruit and vegetable process water systems, animal housing facilities, and bacterial and algae control in wastewater treatment systems. AquaPrime Peraside 15 is part of Neogen's Water Treatment Program, for more information on our other Water Treatment Products visit NEOGEN.com.

Directions for Use/Usage Rates:

Premise Disinfection & Deodorizing:

1-5 oz/5 gallon of solution

Cleaning Poultry & Livestock Drinkwater Lines:

For drinking water lines using holding tanks make a stock solution by one of the following methods:

- Drinking water lines 500 feet in length or less: mix 0.78 gallons (100 fl. oz.) of this product with 100 gallons of water.
- Drinking water lines exceeding 500 feet in length: mix 1.55 gallons (200 fl. oz.) of this product with 200 gallons of water.

Pump the stock solution, completely filling the drinking water lines. If the drinking water lines are not supplied by water from holding tanks, prepare a stock solution by one of the following methods:

- Mix 0.38 gallons (49 fl. oz.) of this product with 49 gallons of water in a 50 gallon tank, pumping this solution into the water line, repeating the process as often as needed, until water line is filled.
- Fill the water line, using a proportioner, set to inject this product undiluted at a rate of 1:128 (0.78%).

After the waterline is filled with the stock solution, activate nipple drinkers to ensure contact with drinkers.

Allow the stock solution to remain in the water lines for 24–48 hours.

Flush lines with fresh water until water is visibly clear.

- Actives:** Peroxyacetic acid, hydrogen peroxide
- Use:** Poultry and livestock drink water lines, animal housing premise, food contact surface and fruit and vegetable processing
- Activity:** Bacteria, virus, fungi, algae
- Application:** Medicator injection, pressure washer, soaking

Water Line Cleaner-Disinfectant

Benefits

- EPA-approved for poultry and livestock drinking water line disinfection
- Compatible with on-farm medicator applicators
- NSF-approved
- OMRI Certified

Packaging

Packaging	Product Code
AquaPrime Peraside 15 2.5 gal Pail	480020/2.5
