

PRODUCT:

Telco + Power WASP KILLER

Telco + Power WASP KILLER

88501

THE BASICS:

- Telco + Power WASP KILLER is very effective any time dangerous insects threaten the safety of personnel in utility, telecommunications, industrial, or commercial applications.
- Telco + Power WASP KILLER is a solvent-based product that contains two powerful fast-acting ingredients. Tetramethrin provides quick knockdown of flying insects. D-phenothrin (Sumithrin™) is a long-lasting residual insecticide and provides killing power.
- The forceful spray pattern delivers a high percentage of the formula to the target site from a safe distance of 20 feet. The spray button's high-launch angle of 15° makes it easier to hit the target. Unique locking mechanism keeps the spray button in place and ready to use.
- Telco + Power WASP KILLER is effective in many areas including inside pad-mounted transformers as well as around and inside pull boxes and meter boxes. It is safe to use around high-voltage equipment and all types of telecommunications equipment.

20 foot spray pattern.

Use Insect Probe (4357) for ant mound treatment.

Safe to use around high-voltage equipment

Quick and effective insect knockdown plus long-lasting killing power

RAINBOW

FEATURES	HOW YOU BENEFIT
Contains 2 powerful, fast-acting active ingredients	Quick and effective insect knockdown plus long-lasting killing power
Effective 20 foot spray pattern	Employee can effectively saturate target from a safe distance
High dielectric strength: 41,000 Volts	Employee safety because of reduced probability of electric shock
