

CVE ECO Acidified Foam Components*

Chemical Name	CAS No.	Function	List(s)
Water	7732-18-5	Diluent	Not Applicable
Hydrochloric Acid	7647-01-0	Cleaning agent	Not Applicable
Lauryl Dimethyl Amine Oxide	1643-20-5	Wetting agent	Not Applicable
Sulfamic Acid	5329-14-6	Cleaning agent	Not Applicable
Cocamidopropyl Betaine	61789-40-0	Emulsifier	Not Applicable
Acrylic polymer	withheld	Sequestering agent	Not Applicable
Glycolic Acid	79-14-1	Cleaning agent	Not Applicable
Cyclic Organic Compound	withheld	Surfactant	Not Applicable

* This table is being shared to comply with the California Cleaning Products Right to Know Act. Please refer to the SDS for further information on product hazards.

CVE ECO Acidified Foam is used as an alternative to regular hatchery, equipment or barn cleaner to remove detergent residues, mineral scale and other hard-to-remove elements. A clean surface is required for complete disinfection. Alternating between a good alkaline detergent and a good acid-based detergent maximizes surface cleanliness and, therefore, prepares the surface for the second step of disinfection. **CVE ECO Acidified Foam** removes dirt, grime, protein, and oils as well as minerals and adherent films.

Recommended areas of use

For Poultry Hatcheries: Walls, floors, ceilings of rooms, setters, and hatchers. Manual cleaning of trays, racks, plastic flats, and boxes.

For Farm Uses: As a general cleaner and deodorizer in poultry houses, swine and livestock barns, and as a wetting agent to wash down poultry houses and swine and livestock barns.

For Food-Processing Plants: Use on floors, walls and shelves, utensils, and walk-in coolers. It cleans and brightens stainless steel, glass, plastic, concrete, and tile in poultry, meat, and canning plants.

DIRECTIONS FOR USE

As a General-Purpose Cleaner for Walls, Floors, Feed Pails, Waterers, and Equipment: Use **CVE ECO Acidified Foam** as a 0.75% to 2.5% solution (1 to 3 fl. oz. per gal. of water) (8 to 24 mL/L). Vary the amount depending on the soil load and how difficult the surface is to clean. **CVE ECO Acidified Foam** may be used through high-pressure cleaning equipment, foaming devices, steam cleaners, or it may be used manually with a cloth, sponge, or brush. After cleaning, rinse away soils with fresh water, or wipe off with a clean sponge.

For Food-Processing Equipment, Utensils, and Other Food Contact Surfaces: Clean as above. Thoroughly rinse cleaned surfaces with potable water before they reuse. Where recommended or permitted, apply a sanitizer solution to food contact surfaces before reuse.

For Barn Cleaning: Use a 0.25% to 0.5% solution of **CVE ECO Acidified Foam** (1 gal. per 300 to 400 gal. of wash water) (1L/300 - 400L) for cleaning. Apply to surfaces and, if possible, let stand for 10 to 15 minutes before thoroughly rinsing all surfaces with clean water at high-pressure. After a thorough cleaning, let surfaces dry as much as possible, and then follow-up with an appropriate disinfecting solution.

ECO ACIDIFIED FOAM

CLEANER AND DESCALER

- Foaming acidic cleaner for use in alternating pH programs in poultry, swine, veal, dairy, cattle, canine and horse operations, and food-processing plants
- Compatible with other disinfectants
- Removes mineral scale, detergent residues, and other elements left after repeated use of alkaline cleaners

Net Contents: 5 gal. (18.93 L)

SIGNAL WORD: DANGER

HAZARD STATEMENTS

Causes severe skin burns and eye damage.
May be harmful if swallowed.
May be harmful if inhaled.

PRECAUTIONARY STATEMENTS

Prevention:

Wash hands thoroughly after handling.
Wear protective gloves, protective clothing and face protection/eye protection.
Do not breathe dust/fumes/mist/gas/vapors/spray.

Response:

Immediately contact a poison control center or doctor/physician.
If on skin or hair: Take off immediately all contaminated clothing. Rinse skin with water/shower. Wash contaminated clothing before reuse.
If swallowed: Rinse mouth. Do NOT induce vomiting.
If inhaled: Remove person to fresh air and keep comfortable for breathing.
If in eyes: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing eyes.

For specific treatment, refer to Section 4 of the product Safety Data Sheet (SDS).

STORAGE AND DISPOSAL

Storage: Store locked up.

Disposal: Dispose of contents/container in accordance with Federal, state, and local regulations.
