### CHARACTERISTICS AND APPLICATION

- Appearance: Cream colored powder\*
- Natural Environmental Flora

### SAFETY INFORMATION

- Avoid breathing dust. In case of inadequate ventilation, wear a mask.
- Wash hands thoroughly after handling.
- If experiencing respiratory difficulty, seek medical attention.
- This product is for professional use only.
- Keep out of reach of children.

### STORAGE AND SHELF LIFE

- Store unopened packages in a cool and dry place.
- Shelf life is XX months from date of manufacture when stored as directed in the unopened original packaging.
- Manufacturing date is stamped on the package.
- Refrigeration at or below 40°F (4°C).
- Once opened use full contents of the package at once.

### DIRECTIONS FOR USE

**For 25 g package:** The contents of each sachet is sufficient for application of 100m<sup>2</sup>. Dissolve the entire contents of this sachet in 0.4 to 0.5 liters of fresh water and apply to an area of 100m<sup>2</sup> (equivalent to an area housing 2000 birds). **For 62.5 g package:** The contents of each sachet is sufficient for application of 250m<sup>2</sup>. Dissolve the entire contents of this sachet in 1.0 to 1.25 liters of fresh water and apply to an area of 250m<sup>2</sup> (equivalent to an area housing 5000 birds). **For 125 g package:** The contents of each sachet is sufficient for application of 500m<sup>2</sup>. Dissolve the entire contents of this sachet in 2.0 to 2.5 liters of fresh water and apply to an area of 500m<sup>2</sup> (equivalent to an area housing 10,000 birds). Open the pouch just before preparation of the solution. The solution must be applied immediately after dissolving and mixing the powder. **LITTERBOOST** should be applied or re-applied 48 hours after the end of antibiotic treatment.

**Note:** Water must be free of chlorine ( $\leq 0.1$ ppm) and disinfectants; otherwise the viable bacteria of this product may be impaired.

\* This is a biological product; therefore, the appearance can vary between batches.
