

Safety Data Sheet available upon request

ProPhorce™ SR 710

A source of esterified butyric acid for the use in water for swine and poultry production systems.

Ingredients:

N-Butyric acid (butanoic acid)
Glycerin

Directions of Use:

Mix 4 oz. of ProPhorce™ SR 710 with water to make 1 gallon of stock solution (see table to right for additional volumes) and then add to the water through a proportioner at a rate of 1 oz. stock solution per gallon of water (1:128).

EXPORT

Stock Solution	ProPhorce™ SR 710	
1 gallon	4 oz	½ cup
2 gallon	8 oz	1 cup
5 gallon	20 oz	2½ cup

Batchnumber:

Production date:

09-2020

Best before:

**24 months after
prod. date**

Nett weight:

55.115 pounds (25 kg)

General:

The dosage level is only an indication, contact your technical representative for more information.
The color does not affect the efficiency. Clean and flush drinking water lines on a regular basis, ideally before and after usage.
Shake well before use. Do not administer at same time with other water line applications.

Storage:

Store in a dry, cool and dark warehouse

FIRST AID:

If in Eyes: Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, and then continue rinsing the eye.
If Inhaled: Move person to fresh air. If person is not breathing, call 911, then give artificial respiration.
If on Skin or Clothing: Remove contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes.
Call a poison control agency or doctor for further treatment advice. Have the product container or label with you when calling a poison control center or doctor, or if transporting for more treatment.
