

Broad Spectrum Herbicide

For contact spray control or burndown of weeds and grasses near poultry and livestock grow-out facilities.

Ingredients

Ammonium Nonanoate

AXXE is effective against the following weeds and grasses:

Algae, Bittercress (hairy), Chickweed (common, mouse-ear), Cocklebur (common), Corn spurry, Cudweed (purple), Groundsel, Lambsquarters (common), Liverwort, Maretail or Horseweed rosettes, Morningglory (annual), Moss, Mustards, Oxalis or Woodsorrel, Pansy (wild), Plantain, Pigweed (smooth, redroot), Mallow (round leaved), Moneywort, Shepherdspurse, Sorrel (sheep), Spurge (spotted), Field pennycress, Velvetleaf, Bentgrass (colonial), Bluegrass, Crabgrass (large), Fescue (creeping red, hard) Nimblewill, Onion (wild), Ryegrass (perennial), Star-of-Bethlehem, Bermudagrass (Wireweed)¹, Bindweed (field)¹, Dandelion¹, Nutsedge (yellow)¹, Ragweed (common)¹.

¹ Use 13 to 15% V/V AXXE Broad Spectrum Herbicide for control or suppression.

General Information

A 10–13% volume to volume (V/V) dilution (13–16 fl. oz. per gallon of water) is recommended for most weed control situations. Do not apply this product through any type of irrigation system. Spray equipment options include hand-held, boom sprayers, pressure sprayers and hose-end sprayers. Larger weeds, perennial weeds and some grasses may require several applications for complete control. Apply AXXE Broad Spectrum Herbicide spray solutions only when weed surfaces are dry.

Mixing

Use the tables below to determine the amount of AXXE required for area to be treated.

1. Fill sprayer tank with half the required amount of water.
2. Add the full amount of AXXE to be used (see rate table).
3. Fill the sprayer tank with the remainder of the water required for the desired final concentration.
4. Apply solution in a uniform spray for maximum coverage of the leaves.

Final Spray Volume (gals)	Amount of AXXE Broad Spectrum Herbicide for Percent V/V (Volume/Volume) Solution				
	6%	8%	10%	13%	15%
1	8 fl. oz.	10 fl. oz.	13 fl. oz.	1 pt.	1.2 pt.
2	1 pt.	1.3 pt.	1.6 pt.	2 pt.	2.4 pt.
5	2.5 pt.	3.3 pt.	4 pt.	5 pt.	6 pt.
10	5 pt.	6.5 pt.	1 gal.	1.3 gal.	1.5 gal.
20	1.3 gal.	1.6 gal.	2 gal.	2.6 gal.	3.0 gal.

Height of Plants to be controlled

Spray Solution (%V/V)

1 inch or less	6 to 8%
1 to 4 inches	8 to 10%
Above 4 inches	10 to 13%

NOTE: Do not use spray concentrations higher than 15% in a pressure sprayer since unacceptable foaming and bubble formation may occur at the nozzle head.

AXXE is available in 2.5, 5, 30, 55 and 275-gallon containers. For additional information, call us toll-free 1.888.273.3088 or visit www.biosafesystems.com.
