

Ramik[®] Liquid Bait

Product Number: 116397

Presentation

Product Description	Product Number
Ramik Liquid Bait 20.16 oz	116397

Key Features

- Concentrated diphacinone-based liquid rodenticide
- Kills house mice, Norway rats, and roof rats
- Convenient, premeasured squeeze-and-pour bottle for accurate mixing
- 20.16 ounce bottle makes 3 gallons of diluted product
- For indoor use in agricultural buildings

Product Description

Ramik Liquid Bait contains a concentrated liquid formulation of 1st generation anticoagulant, Diphacinone — the same active ingredient found in the original Ramik Rodent Control Baits. It is designed for use in poultry, livestock, and agricultural buildings, and is an effective component to a rodent control program, especially in hot, dry conditions or during clean out.

Purpose

Diphacinone, the active ingredient in Ramik, is a first generation anticoagulant. Ramik comes in various forms and package sizes, ideal for use against rats and mice found in and around livestock and production facilities. It is available in pellets, place packs, bars, and liquid bait formulations.

Active Ingredient

Sodium Diphacinone	0.082%
Other Ingredients.....	99.918%
Total	100.000%

EPA Reg. No. 61282-104
