

# Divert Insect Repellent™ AG

Diffuser

## Supplemental Label

### Active Ingredients:

Cupressus sempervirens.....60%  
Natural Inert Ingredients.....40%  
Total.....100%

### Use:

Divert Insect Repellent AG is manufactured with 100% Essential oils that repel insects from areas of concern. One diffuser covers up to 2000 cubic feet and lasts up to 60 days. This product can be used in vehicles, porches, small rooms, entryways, homes, restaurants, food processing and other areas to repel flying insects.

### Use Directions:

Unscrew cap. Remove plastic insert from the neck of the diffuser and screw the cap back on the diffuser. Hang in areas where the diffuser will swing freely. The cork cap will slowly diffuse the mixture throughout the area. For areas that have heavier infestations, a quick flip of the diffuser will soak the top for quicker diffusion and dispersal. Do not allow diffuser or cap to touch fabrics or finished surfaces. Consult state laws before hanging on rearview mirrors.

### Caution:

FLAMMABLE LIQUID, KEEP OUT OF REACH OF CHILDREN & PETS. MAY IRRITATE EYES & SKIN. DO NOT SWALLOW, NOT FOR HUMAN CONSUMPTION OR TOPICAL USE.
