

PRECAUTIONARY STATEMENTS

Hazards to Humans and Domestic Animals

Danger: Corrosive. Causes irreversible eye damage. Harmful if swallowed or absorbed through skin. Do not get in eyes or on clothing. Avoid contact with skin. Wash thoroughly with soap and water after handling. Remove contaminated clothing and wash clothing before use.

PERSONAL PROTECTIVE EQUIPMENT (PPE):

Mixers, loaders, applicators, and other handlers must wear:

- Long sleeved shirt and pants
- Chemical-resistant gloves made of any waterproof material such as barrier laminate, butyl rubber ≥ 14 mil, nitrile rubber ≥ 14 mils, polyvinyl chloride (PVC) ≥ 14 mils, or viton ≥ 14 mils.
- Protective eyewear (goggles, face shield, or safety glasses)
- Shoes plus socks

Follow manufacturer's instructions for cleaning/maintaining PPE. If no such instructions for washables exist, use detergent and hot water. Keep and wash PPE separately from other laundry. Wash the outside of gloves before removing. Discard clothing and other absorbent material that have been drenched or heavily contaminated with the product's concentrate. Do not reuse them.

Application and Handling Equipment

Application, handling, and storage equipment must be constructed of fiberglass, PVC, polypropylene, Viton®, most plastics, aluminum, or stainless steel. Do not use mild steel, nylon, brass, or copper when handling full-strength Cell Guard. At the end of each day, thoroughly rinse all equipment with plenty of clean, fresh water to remove any remaining Cell Guard residue. Store Cell Guard at temperatures above 32°F (0°C). Freezing may cause the product to separate. The seller does not warrant product performance if the product has been frozen. For application, spray evenly across the entire lagoon surface or mix thoroughly until the product is fully dispersed throughout the sewage.

Storage and Disposal

Do not contaminate water, food or feed by storage or disposal.

Storage: Store in a safe place away from PETS AND KEEP OUT OF REACH OF CHILDREN. Store above 40°F. Do not freeze. Always keep container closed. Store Cell Guard in its original container only. Keep away from galvanized pipe and any nylon storage or handling equipment.

Pesticide Disposal: Pesticide wastes are acutely hazardous. Improper disposal of excess pesticide, spray mixture, or rinsate is a violation of Federal Law. If these wastes cannot be disposed of by use according to label instructions, contact your State Pesticide or Environmental Control Agency, or the Hazardous Waste representative at the nearest EPA Regional Office for guidance. In the event of a spill, neutralize with limestone or baking soda before disposal. May deteriorate concrete.

Container Handling: {for containers less than 5 gallon}

Nonrefillable container. Do not reuse or refill this container. Triple Rinse as follows: Empty remaining contents into application equipment or a mix tank and drain for 10 seconds after the flow begins to drip. Fill the container $\frac{1}{4}$ full with water and recap. Shake for 10 seconds. Pour the rinsate into application equipment or a mix tank or store rinsate for later use or disposal. Drain for 10 seconds after the flow begins to drip. Repeat this procedure two more times. Then offer for recycling if available or puncture and dispose of in a sanitary landfill, or by other procedures approved by state and local authorities.

Environmental Hazards

This product is toxic to fish and aquatic organisms. Improper application to water may reduce populations of fish, aquatic plants, and invertebrates.

Do not treat more than one-half of a lake or pond at one time to prevent oxygen depletion from decaying vegetation. Wait 1–2 weeks between treatments to allow oxygen levels to recover.

Trout and other fish species may be especially sensitive, particularly in soft or acidic waters, even at labeled application rates.

Do not contaminate water when disposing of equipment wash water (see Disposal Instructions). Consult your local State Fish and Game Agency before treating public waters, as permits may be required.

FIRST AID

Have the product container or label with you when calling a poison control center or doctor, or going for treatment. For Emergency Assistance Call CHEM-TEL, INC. 1-888-255-3924. You may also contact the National Pesticide Information Center at 1-800-858-7378 for emergency medical treatment information.

If In Eyes:	Hold eye open and rinse slowly and gently with water for 15-20 minutes. Remove contact lenses, if present, after the first 5 minutes, then continue rinsing eye. Call a poison control center or doctor immediately for treatment advice.
If Swallowed:	Call a poison control center or doctor immediately for advice. Have the person sip a glass of water if able to swallow. Do not induce vomiting unless told to do so by the poison control center or doctor. Do not give anything by mouth to an unconscious person.
If on Skin or Clothing:	Take off contaminated clothing. Rinse skin immediately with plenty of water for 15-20 minutes. Call a poison control center or doctor immediately for treatment advice.
Note to Physician: Probably mucosal damage may contraindicate the use of gastric lavage.

Cell Guard

DIRECTIONS FOR USE:

It is a violation of Federal law to use this product in any manner inconsistent with its labeling. Do not apply Cell Guard in a way that results in contact with workers or other individuals, either directly or through spray drift. Only properly protected handlers may be present during application. Use of this product in public waters may require permits. Consult local authorities before application

To control algae in the cooling system, pour 6-8 oz of Cell Guard into the cooling system reservoir. Agitation is not required, do not mix with basic substances.

ACTIVE INGREDIENT:

Copper Sulfate Pentahydrate...19.8%

**KEEP OUT OF REACH OF CHILDREN
DANGER/PELIGRO**
